Department of Nursing Mission Statement

The mission of the Department of Nursing is congruent with the mission of The College of New Jersey in promoting excellence, valuing diversity and promoting a service to society from within a diverse community of learners. The mission of the Department of Nursing is to serve the people of New Jersey and the nation by preparing professional nurses at the baccalaureate and masters levels and by ensuring that all graduates are prepared to be successful, ethical and visionary leaders in a multi-cultural technological and increasingly global world. The Department of Nursing will accomplish its mission by emphasizing caring, critical thinking, independent judgment, clinical and ethical decision making, and autonomous behaviors.

Department of Health and Exercise Science Mission Statement

The Department of Health and Exercise Science (HES) embraces the concept that regular physical activity enhances health, fitness, and performance. The department aspires to and strives for excellence and distinction in teaching, scholarship, and professional service, and believes that a serious and continuing commitment to scholarship complements and enriches teaching. The department is committed to providing an intellectually challenging yet accessible environment that fosters and maximizes students’ learning and development. The department offers a comprehensive curriculum that encompasses both the breadth and depth of knowledge of human health and movement. Through a variety of course offerings, laboratory and field experiences, pedagogical practices, research opportunities, and student-faculty interactions, our graduates will develop the knowledge, skills, and abilities needed to excel as professionals or as continuing students seeking advanced education.
